

The following is a listing of private sector online services offering information for business across a wide range of sectors. Services cover free directory listings, fees for service to assist firms in advertising and marketing or gaining access to tenders.

## Achilles

Achilles Group is a subscription based global network supporting more than 700 of the world's largest companies. Its fee structure is based on the number of product code registrations that a supplier maintains. Services include an online supplier register, a project database, identification and prequalification services and evaluation services to enable companies to immediately prequalify for tender on paid packages.
