

## Worksheet 2 – Assess a project you have in mind

In coming up with a specific project to seek funding for, start by considering these questions:

What opportunity are you trying to realise? Or what problem are you trying to solve?	
How does the project fit into your current plan for your organisation?	
What benefits will the project bring to your organisation?	
How will this project be of value beyond your own organisation – that is, to government objectives or the needs of the wider Tasmanian community?
