

Worksheet 2 – Assess a project you have in mind

In coming up with a specific project to seek funding for, start by considering these questions:

| | |
|---|--|
| What opportunity are you trying to realise? Or what problem are you trying to solve? | |
| How does the project fit into your current plan for your organisation? | |
| What benefits will the project bring to your organisation? | |
| How will this project be of value beyond your own organisation – that is, to government objectives or the needs of the wider Tasmanian community? | |
